1.                   G    (Fis) e       e7  
There are places I'll remember  
          C-c        G  
All my life though some have changed  
          G    (Fis)    e       e7  
Some forever, not for better.  
          C-c        G  
Some have gone and some remain.  
          e                    A  
All these places had their moments,  
          c                    G  
With lovers and friends I still can recall,  
          e7                    A7  
Some are dead and some are living.  
          c        G                    G    D    G    D  
In my life I've loved them all.

2.                   G    (Fis)    e    e7  
But of all these friends and lovers  
          C-c        G  
There is no-one compares with you  
          G        (Fis)    e    -e7  
And these memories lose their meaning.  
          C -    c        G  
When I think of love as something new.  
          e                    A  
2a. And I know I'll never-ever lose affection  
          c                    G  
For people and things that went before  
          e7                    A7  
And I know I often stop and think about them.  
          c        G  
In my life I'll loved you more.
